

Active Parenting of Teens :)

Good Kids, Bad Choices

From Connect with Kids for parents and kids

According to a survey from the
Centers for Disease Control and Prevention:

- 43% of US teens admitted to drinking alcohol in the past month,
- 20% used marijuana, 10% said they had driven a car after drinking
- Among high school students, 47% have had sex

Have you ever asked:

Why do some teens take dangerous risks?

What are the underlying causes of the bad choices they make?

Is there something parents can do to minimize the risks of adolescence?

Good Kids, Bad Choices

Provides an opportunity for you to explore with your children these issues and Receive expert advice for parents and teens including:

- Fact Sheet
- Parent's Tips sheet
- Discussion questions for students and adults

Date: Tuesday, March 6, 2018
